

Experimental Design and 3Rs Workshop
Monday 24th January 2022

Programme	
11.00 – 11.05	Welcome
11.05 – 11.50	Session 1 – Chair: Elena Ghirardello (UK DRI, UCL) Who are the NC3Rs and how can they help your research? Drs Ellen Forty and Laura McKillop, Regional Programme Managers, <i>NC3Rs</i>
11.50 – 13.15	Key considerations and resources for designing rigorous animal experiments Dr Esther Pearl, Programme Manager – Experimental Design, <i>NC3Rs</i>
13.15 – 13.45	Break
13.45 – 14.45	Session 2 – Chair: Mehreen Mohammad (UK DRI, Edinburgh) Implementing 3Rs and promoting welfare in neurological studies: early recognition of adverse effects and humane endpoints Dr Lucy Whitfield, <i>OWL Vets</i>
14.45 – 15.00	Break
15.00 – 16.00	Session 3 – Chair: Gareth Banks (UK DRI, AMP) Best Practice in managing adverse phenotypes in genetically altered mice Dr Lucy Whitfield, <i>OWL Vets</i>
16.00 – 17.00	Session 4 – Chair: Michael Woods (University of Cambridge) ‘Caring for the elderly’ – A guide to looking after older rodents Dr Caroline Chadwick, <i>University of Birmingham</i>
17.00 – 17.20	Discussion and Closing remarks
